TECHNICAL DATA SHEET

CNC904

Key features

- Control of **bending sequences**
- **Anti-collision control of sheet metal** with the machine structure
- **Anti-tipping** and **rotation control of sheet metal**
- **Management of box elements on the CNC graphics**
- Management **of bending projects:** for simple filing and reuse (**integrated CAM**)
- **Import of overall dimensions and structure:** in 2D or 3D graphic format
- **Manual change of bending sequence**, according to the desired priority

Technical data

	CNC904
Monitor (Inches)	15”
Aspect ratio	4:3
Width [mm]	400
Height [mm]	310
Hard Disk (standard/optional) [GB]	32/128
Max number of axes/spindles	16
INTERPOLATION AND CONTROL	
Control loop cycle time [us]	250
Look ahead blocks	300
